TRAINING FOR TOMORROW'S FIRE SERVICE

COMMISSION ON FIRE PREVENTION AND CONTROL

2004 TRAINING CALENDAR

A LETTER FROM THE DIRECTOR OF TRAINING

The world of the fire service is becoming more complex day by day. The increased burden that is placed on fire departments is tremendous. From Weapons of Mass Destruction to everyday fire suppression, we need to be ready for anything and everything that comes our way. This year, the Connecticut Fire Academy's full-year Calendar Schedule is filled with all types of diverse training programs ranging from hands-on motor skills to officer development of critical thinking skills.

We always provide the most appropriate learning environment that is available with some of the most realistic props and simulators that are on the market today. Our instructors are interested in the learning mechanisms

that help today's fire service professionals and are eager to provide their services to ensure the behavior changes in the students that are required to put forth an equal effort at an emergency scene. We encourage students to take advantage of these calendar classes and extend invitations to fire departments throughout the state to take advantage of our In-service Training Program, in which you may request any course from our catalog to fit your training needs. We eagerly anticipate a very productive New Year and will provide you with the quality services this occupation demands.
